Notes:

- 1. In the third quarter of 2025, the Company consolidated the financial statements of Shandong Energy Group Northwest Mining Co., Ltd., which constituted a business combination under common control. Accordingly, the Company made retrospective adjustments to the relevant data for prior periods.*
- 2. The Group's sales volume of commercial coal represents the aggregate sales volume of self-produced coal and traded coal sold to external markets, excluding coal sold to the Group's internal chemical and power segments.*
- 3. The year-on-year increase in the production and sales volumes of glycol was mainly attributable to the systematic overhaul of the chemical production facilities conducted by Inner Mongolia Rongxin Chemical Co., Ltd. during the corresponding period of the previous year, as well as the Group's efforts to seize market opportunities during the reporting period and increase external sales volume.*
- 4. The production and sales volume figures in the table above have been rounded. However, the percentage changes were calculated based on the original figures before rounding.*

As the operational data is influenced by various factors (including but not limited to the adjustment of national macroeconomic policies, changes in domestic and international market conditions, seasonal factors, adverse weather and disasters, equipment maintenance and safety inspections), the operational data for each quarter may differ substantially. The operational data may differ from the data disclosed in the periodic reports for the relevant period, and the final data shall be subject to the data disclosed in the periodic reports for the relevant period. **Investors should be aware of the investment risks.**
